The Power of Time

**WHERE**
Greece

**DURATION**
September 2020

**TOPIC**
Youth, Cross-disciplinary skills, solidarity, Time bank

**OBJECTIVES**
Enable youth professionals and those involved in international mobility for young people (in particular in the field of volunteering) to acquire knowledge, skills and attitudes in order to set up a time bank in their local area.

**TARGET GROUPS**
Youth professionals/young leaders.
**Activities**

- Erasmus Plus Training (KA1) for youth stakeholders, using non-formal education methods, on the principles of time banking, a system that connects people who want to share skills and interests while covering their own needs.

- Creation of a platform to network volunteers and enable European volunteers to propose activities for the host community. Thanks to the Time Bank’s network, young volunteers and citizens of the host community will offer and receive various training services and opportunities in a supportive setting, according to each individual’s needs. The time bank represents a real benefit for the well-being and cohesion of communities and promotes the development of various skills (societal, social and professional).

**Impacts**

38 youth workers and young leaders trained.

**Partners**

D’Antilles & D’Ailleurs (Coordinator), Solidarity Tracks and European network of youth associations.

**Funded by**

Co-funded by the European Commission’s Erasmus Plus programme (KA1: Training for youth actors).
