**REEF**

Erasmus Consortium+ network of educational and Training Institutions in the Caribbean

**WHERE**
Guyana, Greece

**DURATION**
2020 - 2021

**TOPIC**
Vocational Training Course, sustainable agriculture, agritourism, agro-transformation, youth, integration

**OBJECTIVES**

- Train 9 young people in sustainable agriculture by carrying out internships in structures using agro-ecological and agri-tourism practices and associated crops.
- Understand the overall functioning of a place focused on self-sufficiency, permaculture, agroforestry, agritourism, bio architecture, agro-processing, marketing of products derived from organic agriculture.
- Learning English and Greek.

**TARGET GROUPS**

- Young job seekers in the agro-ecological sector.
- Agri-tourism and associated cultures.
- Youth professionals.
Erasmus Plus internships are aimed at all those who wish to benefit from an immersion in a professional environment in line with their professional project and who are willing to get involved in the host organisation’s work activities.

More specifically, an internship is a subject-specific learning programme designed to improve the skills, knowledge, abilities and attitudes of the participants and to strengthen the foreign language skills of the trainees.

Thus, the 9 Internships, lasting 4 weeks, will take place at COB, in Larissa, a structure with multiple skills and oriented towards innovation and energy and food self-sufficiency. The internship includes moments dedicated to personal projects and learning English as well as the basics of Greek.

9 Young vocational training trainees (registered at the Employment Centre).
2 professionals.

Consortium Antilles Guyane (coordinated by the Agricultural School of Macouria) of which D’Antilles & D’Ailleurs is part, COB.

Erasmus Plus (KA2-formal education).
