

InnoVolga - Vié ka fè nèf

WHERE

Martinique,
Volga Plage

DURATION

2019 - 2020

TOPIC

Inclusion, environment, community,
waste management

OBJECTIVES

- Environmental awareness.
- Management and reuse/recycling of waste.
- Community work in the neighbourhood.

TARGET GROUPS

Volga community.

ACTIVITIES

Topics discussed during monthly workshops with the citizens of the neighbourhood based on the principles of participatory governance (working circles, elections without candidates, etc.) :

- Ecological Portrait workshops: constitution of working circles, neighbourhood strengths and resources, perception and feelings about waste, legal framework, stakeholders, roles and functions of waste management, design of a questionnaire for collecting data on sorting habits, mapping (identification of waste and collection points), discovery outings, evaluation of flow potential, scenario for a structured re-use project ;
- Material workshops : the manufacture of recycling machines using plastic and aluminum and their launch. The machines will be built from waste collected in the district: launch of workshops to introduce the creation of objects: plastic, aluminum, wood and eco-furniture.

IMPACTS

- 102 inhabitants directly involved in the workshops.
- 5 associations involved.
